

MOD9001C DATASHEET

Sky Microwave Co., Ltd

Features and Functions:

- Supporting both Chinese/English SMS data communication
- Supporting 850/900/1800/1900 MHz GSM Quad band, better signal quality
- Status lights indication
- Supporting AT Command Set
- Supporting TCP/IP protocol stack
- Standard RS-232 serial port, easy to use
- Industrial standard design and quality guarantee

Specification:

- GSM Work Frequency: 850/900 /1800 /1900MHz
- Operation temperature : -25 - +60°C
- Storage temperature: -35 - +80°C
- Humidity : 0 - 95% non-condense
- Receive Sensitivity: -102dBm
- Maximum Transmit Power: 1W
- Dynamic range: 62dB
- Frequency tolerance : $\leq \pm 0.1\text{ppm}$
- Power supply: 7.5V、12V optional (customized by requirement)
- Current: standby 50mA, work 300mA

Important note: We are original manufacturer in these GSM modem!

Standard Package Content:

Main unit /GSM antenna /Power supply /RS232 cable

Package Size and Weight

GB package Weight: 0.5 kg /Carton size: 52*29.5*48cm /Quantity: 50pcs/Carton/ N.W: 21kgs/CN/
G.W.:22kgs/CN
